Construction type	Screwed / assembly kit
Base material	Steel
Mounting type	Wall mounting
Tyre width	65 mm
Configuration	One-sided
Positioning space depth	1100 mm

Our 3800 series Serial Hanging Parkers are easily mounted to suitable ceilings or walls with screws and dowels. They offer space for two to eight bicycles of all kinds and can be expanded almost infinitely with a connecting element. The systems consist of a heavy-duty angle steel construction with robust, plastic-coated

suspension hooks. The height-offset hangers with plastic-coated hooks in RAL 3000 Flame Red signal colour save hanging space and reliably protect against scratches and dents. Integrated steel eyelets provide optimised theft protection. Fast, economical shipping by parcel service.

- + Heavy-duty angle steel construction
- + Robust, plastic-coated suspension hooks
- + Suitable for tyre widths up to 65 mm
- + Steel eyelets for optimised anti-theft protection
- + Storage depth only approx. 1100 mm
