Colour	Silver
Weight	53,40 kg
Construction type	Screwed / assembly kit
Base material	Steel
Mounting type	On the floor
Bike spacing	500 mm
Tyre width	64 mm
Configuration	One-sided
Positioning space depth	1850 mm

Particularly safe, with vertical format parking hoops, plastic-sheathed frame-rest and steel eyelets to protect even the highest quality bicycles from damage and theft – that's what characterises the Parker with Frame Rest 4700 XBF. This makes safe parking for high-quality bicycles such as pedelecs and e-bikes even more comfortable. The 4700 XBF, with its extra-wide spacing between bicycles, ensures particularly easy parking for tyre widths of up to 64 mm. The round steel eyelets integrated in the frame rests make locking and unlocking particularly easy and secure. All in all, the highest level of parking comfort for your customers, employees and guests or yourself. The alternating low/high hoop setting saves valuable space. The system is prefabricated for ground mounting and series connection. Ground mounting brackets included. Meets the requirements for theft protection according to DIN 79008:2016-05 point 7.2
