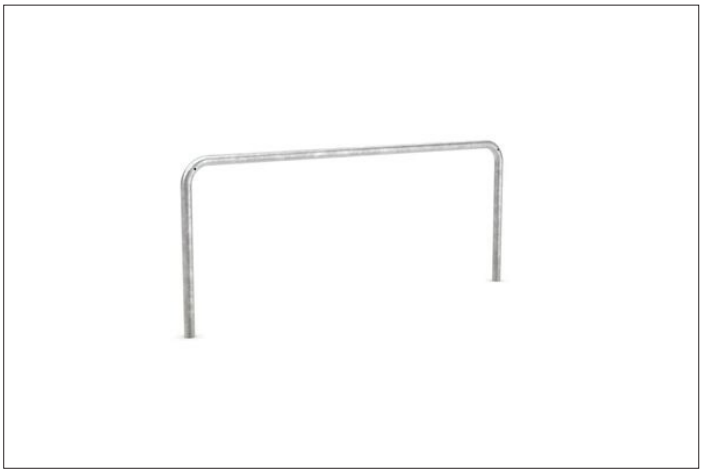
105900024	4250366515861	2000 mm	1150 mm	48 mm



Parking spaces	2
Colour	Silver
Knee-high crossbar	No
Construction type	Single Component
Base material	Steel
Mounting type	Set in concrete
Configuration	Two-sided

The Safety Bicycle Rest 9100 enables the quick realisation of comfortable bicycle parking systems featuring steadfast stability and exemplary theft protection. Ideal for heavily used parking spaces serving employees, guests, customers or students. The freely mountable frame rests made of corrosion-resistant 48 mm galvanised steel tubing make it easy to park all bike types and sizes. A post extension (+200 mm) for embedding in concrete or paving is available on request and there are also practical mounting rails on request for row/serial systems.

- **+ Sturdy tubular steel construction, galvanised**
- **+ 48 mm pipe diameter**
- **+ For embedding in concrete or bolting down**
- **+ Post extension for setting in concrete or under paving**
- **+ Mounting rails for row/series installation on request**
