The Jena shelter system, supplied as a kit, offers reliable protection from wind and weather on a compact 2.25 m² footprint. Used as a smoking shelter, it also helps protect non-smokers in workplaces, hospitals, or public institutions. The hot-dip galvanized flat-roof

steel frame features a purlin-free roof system and includes one rear wall and two side panels made of high-quality corrugated polycarbonate. A wall-mounted ashtray is included in the delivery – suitable mounting hardware is also supplied.

- + Hot-dip galvanized flat-roof steel construction
- + 2.25 m² footprint
- + Rear and side panels made of high-quality corrugated polycarbonate
- + Wall-mounted ashtray included
