The BikeBox 1 Basic Gable Roof row system reliably protects bicycles from theft, vandalism and the elements. It is ideal for use in schools, companies, residential complexes, public institutions and private households. The robust construction made of galvanised sheet steel ensures lasting stability and corrosion protection. High-quality bicycles, e-bikes or pedelecs can be stored here safely – even for longer periods of time. Each unit is equipped

with a single-lever cylinder lock as standard. Plastic pads on the door hinges ensure durability in outdoor use. The modular design allows repairs to be carried out by replacing individual components and makes it easy to add further parking spaces. The product is delivered disassembled, with assembly materials and instructions included. The BikeBox 1 Basic meets the requirements of the ADFC guideline TR6102-0911 (test number Q1205).

- + Robust, galvanised sheet steel construction
- + Corrosion-protected and durable
- + With single-lever cylinder lock per unit
- + Modular system: expandable and repairable
- + Ideal for public and private use
