Tyre width	70 mm
Locking mechanism	Single lever cylinder lock

The BikeBox 1 Gable Roof row system reliably protects bicycles from theft, vandalism and the weather. It is suitable for schools, companies, residential complexes, public institutions and private households. The entire structure is made of galvanised sheet steel and is fully powder-coated in RAL 7016 anthracite grey. This creates a robust, durable and visually appealing shelter for high-quality bicycles, e-bikes and pedelecs. Each unit is equipped with

a single-lever cylinder lock as standard. Plastic pads on the door hinges prevent corrosion in outdoor areas. The modular design allows individual components to be replaced and the unit to be easily expanded. The unit is delivered disassembled – assembly materials and instructions are included. The BikeBox 1 Gable Roof complies with ADFC guideline TR6102-0911 (test number Q1205).

- + Robust, galvanised sheet steel construction
- + Corrosion-protected and durable
- + With single-lever cylinder lock per unit
- + Modular system: expandable and repairable
- + Ideal for public and private use
