Colour	RAL 7016 - Anthracite grey
Base material	Steel
Weight	254,60 kg
Surface finish	Galvanized and powder coated
Tyre width	70 mm
Locking mechanism	Single lever cylinder lock

The BikeBox 1 arched roof row system reliably protects bicycles from theft, vandalism and the elements. It is ideal for schools, companies, residential complexes, public authorities, public institutions and also for private use. The entire system is made of robust, galvanised sheet steel and is powder-coated in RAL 7016 anthracite grey – for a particularly resistant, weatherproof surface with a modern look. High-quality bicycles and e-bikes are safely stored in it – even for longer periods of time. Each unit is equipped with a single-lever cylinder lock as standard. Plastic pads on the door hinges provide lasting protection against corrosion when used outdoors. The modular design allows individual parts to be replaced and the system to be easily expanded. The product is delivered disassembled, with assembly materials and instructions included. The BikeBox 1 Gable Roof complies with ADFC guideline TR6102-0911 (test number Q1205).

- **Robust, galvanised sheet steel construction**
- **Corrosion-protected and durable**
- **With single-lever cylinder lock per unit**
- **Modular system: expandable and repairable**
- **Ideal for public and private use**
