The "Jena" canopy system offers plenty of protection from wind and weather on an area of either 2.25 or 4.67 m². Used as a smoking shelter, it also helps to protect non-smokers in companies, hospitals or public authorities. The affordable, hot-dip galvanized flat-roof steel construction has two or optionally three side elements, made of high-quality corrugated polycarbonate, and

has practical leaning brackets. The system is inexpensive and can be delivered quickly. Standing ashtrays or litter garbage cans are available as accessories. "Jena" is supplied as a kit, together with a foundation plan and assembly instructions. The "Jena Maxi" version is available with double the space.

- + Hot-dip galvanized flat roof steel construction
- + Two sizes with 2.25 or 4.76 sqm floor space requirement
- + Complete package with rear/side walls
- + Maxi version with double the space available
