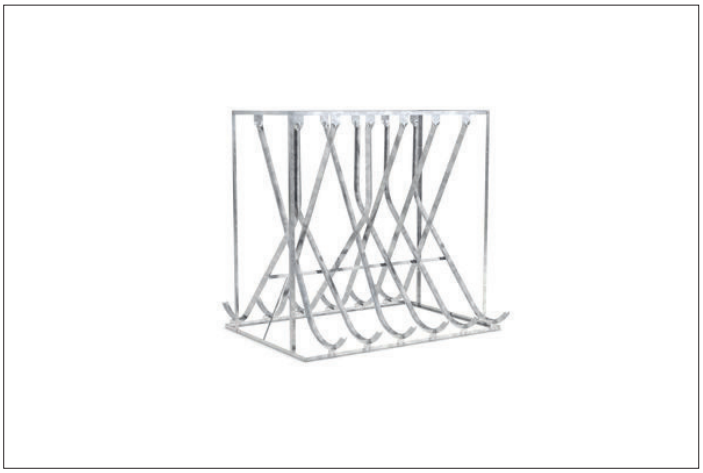
Bicycle racks

SF 12D

Is inclined to please and saves lots of space

Space-saving semi-vertical ramp system for indoor and outdoor use and tyre widths up to 60 mm. Available as a free-standing unit or for wall mounting.

Article number	EAN	Width	Height	Depth
105500146	4250366530642	2100 mm	2010 mm	2000 mm



Parking spaces	12
Colour	Silver
Weight	90,00 kg
Construction type	Screwed / assembly kit
Base material	Steel
Mounting type	On the floor
Bike spacing	350 mm
Tyre width	60 mm
Configuration	Two-sided

Here bicycles park at an angle to save valuable space with a comfortable 350 mm spacing between bikes. The weather-resistant steel construction is suitable for use indoors and outdoors, in garages or parking lots, and is, in any case, easy to assemble. The Semi-vertical Bike Rack SF can be set up free-standing thanks to its all-around base frame while the SW version can be mounted to walls. The SF version is available for double-sided access. All are suitable for tyre widths up to 60 mm. Locks can be attached to the guide rails. RAL-coloured versions are available as options.

- **+ Weatherproof steel construction**
- **+ 60 mm wide guide rails**
- **+ Alternate high/low setting**
- **+ Anti-theft protection through lock connection options**
- **+ Prefabricated for row/serial connection**
