The versatile and adaptable W model series is characterised by its high-quality materials, elegant design and its particularly flexible modular concept. All this enables you to create the right space for every need; for example, as a gatehouse, office or sanitary container. The room system is an architectural business card for your enterprise, blending in harmoniously with its surroundings and enhancing your corporate design. In this version for outdoor

installation, roof, wall, floor and glass insulation ensures that you feel comfortable in your room system at any time of the year. Furthermore, W model series accessories offer you innumerable design possibilities - whether lighting solutions, cleanroom air conditioning, connector systems, windows or doors. In addition, the room system can be limitlessly expanded in terms of surface area and is also available as a double or three-storey construction.

- + 24 mm insulating glazing in a plastic frame
