Zürich Z2

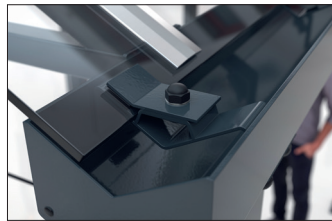

Surprising versatility in familiar form

Corrosion-protected, custom-produced steel construction with longitudinal/transverse gable roof made of laminated safety glass and variable side elements.

Article number	EAN	Width	Height	Depth
102001924	4250366536019	3000 mm	2765 mm	2000 mm

Clear width	2900 mm
Clear height	2200 mm
Clear depth	1830 mm
Roof style	Gabled roof
Roof type	Laminated safety glass
Colour	RAL 7016 - Anthracite grey
Base area	5,30 m ²
Mounting type	Floor mounting
Base material	Steel
Snow load	0,93 kN/m ²

A distinctive feature of the „Zurich“ model series is the classically shaped, transparent gable roof – a form that has been tried and tested for centuries and which evenly dissipates snow and rain. You can find the gable roof on the „Zurich“ in longitudinal or transverse direction, depending on choice and suitability. The corrosion-protected steel girders can be arranged variably, so that cantilever designs are also possible, which are ideally suitable

as shelters for bicycle parking facilities. The versatile system also proves itself as weather protection for shopping carts or carports. Design options also exist for the sidewalls, which by default are of tempered safety glass, as well as in the colour scheme. All types of attachment are possible on request. Extensive range of accessories.

- + Hot-dip galvanised gable roof steel construction
- + Longitudinal or transverse roof, variable roof length
- + Side walls made of toughened safety glass or other materials
- + Custom colour scheme according to RAL
- + Floor mounting on request
