The „Jena“ shelter system offers a lot of protection against wind and weather on just 2.25 m² of floor space. Used as a smoker's shelter, it also helps protect non-smokers in businesses, hospitals or government agencies. The economical, hot-dip galvanised flat roof steel construction has two, or optionally three, side elements made of high-quality corrugated polycarbonate, and

has handy side rails to lean on. The system is inexpensive and can be delivered quickly. A free-standing ashtray or waste bin as an accessory is also available. „Jena“ comes as a kit, along with a foundation plan and assembly instructions. Also available as a „Jena Maxi“ variant with double the space.

- + Hot-dip galvanised flat roof steel construction
- + Required surface area only 2.25 m²
- + Rear/side panels made of high-quality corrugated polycarbonate
- + Also available as a Maxi version with double the space
