Colour	RAL 7016 - Anthracite grey
Base area	9,90 m <sup>2</sup>
Mounting type	Floor mounting
Base material	Steel
Snow load	1,90 kN/m <sup>2</sup>

Your employees, customers or guests will enjoy coming together under this robust and beautifully designed pavilion-style shelter. The „Athen“ steel frame construction with glass roofing in laminated safety glass guarantees an exceptionally long service life in any weather. For maximum corrosion protection, all steel parts are hot-dip galvanised, primed and colour-coated or painted with environmentally friendly two-component paint.

Drainage is above ground through the supports. Printable side walls made of toughened safety glass, benches, bistro tables and free-standing ashtrays are optionally available. The assembly kit for self-installation is supplied with easy-to-follow assembly instructions. Optional custom coating in RAL colours of choice (except pearl and signal colours).

- + Hot-dip galvanised rectangular steel tubing construction
- + Roofing in clear laminated safety glass
- + Drainage above ground through uprights
- + Colour design in RAL of your choice
- + Assembly kit for self-assembly with assembly instructions
