Our premium GN model is a first-class combination of quality, security and design. Torsion-resistant aluminium profile and tempered safety glass doors make it the professional choice for all requirements. The frameless all-glass swinging doors of tempered safety glass provide maximum visibility of the contents.

Their opening angle of 180 degrees enables the problem-free exchange of notices. The lock ensures even more security and easy closing convenience. The white text bar gives the showcase an unmissable headline and even from a distance provides the viewer with initial information about its contents.

- + All-glass swinging doors of tempered safety glass
- + 180° opening angle of the doors
- + Building material class B1 (low flammability) according to DIN 4102-1
- + White text bar for long-distance recognition optional
