| Opening type | Hinged door |
| Configuration | One-sided |

Our premium GN/GR model is a first-class combination of quality, security and design. Torsion-resistant aluminium profile and tempered safety glass doors make it the professional choice for all requirements. The frameless all-glass swinging doors of tempered safety glass provide maximum visibility of the contents. Their opening angle of 180 degrees enables the problem-free exchange

of notices. The lock ensures even more security and easy closing convenience. For accident prevention (impact protection), the GN/GR is also available with round die-cast zinc corner joints. The white text bar gives the showcase an unmistakable headline and even from a distance provides the viewer with initial information about its contents.

- + All-glass swinging doors of tempered safety glass
- + 180° opening angle of the doors
- + Certified flame resistance (B1)
- + White text bar for long-distance recognition optional
- + Version GR: injury protection through round corner joints
