| 105700001      | 4250366513362 | 1050 mm | 405 mm | 538 mm |

|                   |                          |
|-------------------|--------------------------|
| Parking spaces    | 3                        |
| Colour            | Silver                   |
| Weight            | 9,50 kg                  |
| Construction type | Welded / ready assembled |
| Base material     | Steel                    |
| Mounting type     | On the floor             |
| Tyre width        | 55 mm                    |
| Configuration     | One-sided                |

In the Hoop Parker 1000 bicycles and pedelecs park offset in height at a comfortable spacing between wheels of 350 mm or also double-sided on request to save valuable space. The parking space depth is approx. 1850 mm for single-sided parking, approx. 3200 mm for double-sided. Fast set up, without requiring assembly

or concreting, this model can create large and super-large bicycle parking facilities in front of schools, lecture theatres, stadiums, train stations, etc. – or in front of the pharmacy. Ground anchors and mounting brackets are sold separately.

- + Robust, corrosion-protected steel construction
- + Alternate high/low setting
- + Optional for single or double-sided bike parking
- + Row/series connection (with an even amount of spaces) and ground mounting possible
- + No assembly required
