Particularly safe, with vertical format parking hoops, plastic-sheathed frame-rest and steel eyelets to protect even the highest quality bicycles from damage and theft – that's what characterises the Parker with Frame Rest 4500. This makes safe parking for high-quality bicycles such as pedelecs and e-bikes even more comfortable. The round steel eyelets integrated into the frame

rests make locking and unlocking particularly easy and secure. All in all, the highest level of parking comfort for your customers, employees and guests or yourself. The alternating low/high hoop setting saves valuable space. The system is prefabricated for ground mounting and series connection.

- + Free-standing, bolted tubular steel construction
- + Vertical parking hoops and sheathed frame rest
- + Integrated eyelets to prevent theft
- + Prefabricated for row/series connection
