Particularly safe, with vertical format parking hoops, plastic-sheathed frame-rest and steel eyelets to protect even the highest quality bicycles from damage and theft – that's what characterises the Parker with Frame Rest 4500 XBF. This makes safe parking for high-quality bicycles such as pedelecs and e-bikes even more comfortable. The 4500 XBF, with its extra-wide spacing between bicycles, ensures particularly easy parking. The round steel eyelets

integrated in the frame rests make locking and unlocking particularly easy and secure. All in all, the highest level of parking comfort for your customers, employees and guests or yourself. The alternating low/high hoop setting saves valuable space. The system is prefabricated for ground mounting and series connection. Ground mounting brackets included.

- + Free-standing, bolted tubular steel construction
- + Vertical parking hoops and sheathed frame rest
- + Integrated eyelets to prevent theft
- + Prefabricated for row/series connection
