Our BigSign advertising pylon is not only an eye-catcher, but also a real brand ambassador. Equipped with modern LED lighting, it guarantees an excellent long-distance effect day and night. Our experience enables us to precisely implement your corporate design. At the same time, the design remains as flexible and dynamic as your company: If your message changes, simply exchange

the advertising panels. The robust steel construction guarantees longevity and durability. The foundation can be prepared before delivery, so assembly takes very little time. In this version open at the bottom - this provides the necessary overview and safety at entrances and exits.

- + Modern LED lighting for presence around the clock
- + Interchangeable advertising panels allow flexibility
- + Robust steel construction guarantees durability
- + Design of the advertising spaces according to your corporate design
- + Open at the bottom for more safety at entrances and exits
