Thanks to the BikeBox 1, wind and rain or thieves and vandals can no longer harm your bikes. Bicycles of all sizes and types, with and without luggage, can be stored safely and comfortably in its modular construction made of sturdy, corrosion-resistant sheet steel. The BikeBox 1 is ideal for schools, sports facilities, government agencies, companies, campsites, residential complexes, private households or bike & ride stations – wherever

high-quality bicycles, pedelecs and e-bikes have to be safely parked overnight or even longer. A standard single-handle cylinder lock protects against unauthorised access. The modular design allows replacement of individual parts and enables the extension to a series of systems of any size. This version in RAL 7016 has a delivery time of one week.

- + Robust sheet steel construction
- + Corrosion-resistant value-retention through galvanising
- + Standard with single-handle cylinder lock
- + Modular design for replacement and extension
- + Short delivery time
