

Safety Bicycle Rest 9200

Stability and theft protection: the sturdy Safety Bicycle Rest 9200 for embedding in concrete or bolting down with optional mounting rails for row connection.

Article number	EAN	Width	Height	Depth
105900028	4250366515908	2000 mm	1150 mm	48 mm

Parking spaces	2
Colour	Silver
Knee-high crossbar	Yes
Construction type	Welded / ready assembled
Base material	Steel
Mounting type	Set in concrete
Configuration	Two-sided

The Safety Bicycle Rest 9200 enables the quick realisation of particularly robust and stable comfortable bicycle parking systems with optimal theft protection. Ideal for parking spaces heavily used by employees, guests, customers or students. The freely mountable stanchions and a practical knee crossbar of corrosion-resistant 48

mm tubular galvanised steel or V2A stainless steel make it easy to park all bike types and sizes. Good to know: the versions for bolting down have a post extension (+200 mm) available on request for over-paving, and for row/serial installation there are also practical mounting rails on request.

- + Sturdy tubular steel construction, galvanised
- + Practical, visually appealing knee crossbar
- + For setting in concrete or bolting down
- + Post extension for over-paving possible
- + Mounting rails for row/series installation on request
