Versatility and flexibility are already built into our timelessly elegant "Köln" shelter system. The "Köln" is available in several sizes and colours, with variable roof lengths and widths and optimised for your application. Printable toughened safety glass fastened with glass holders or other materials are available for the rear and side panels. Even systems with protected interior

and access doors can be realised. The drainage takes place via ground-level gargoyles. The "Köln" is suitable for very high wind loads and in this "Alpine" variant for even higher snow loads. Custom coating in at least C4 medium quality is also offered. Ready assembled or as a kit.
