The Leipzig canopy system is simple, robust and extremely versatile. The combination of basic and extension units and the option of using side and rear walls made of trapezoidal sheet metal creates canopies for weatherproof storage of materials or for parking vehicles, open, semi-open or closed. The practical profiled

sheet metal roofing has a three-sided, screwed cover and drains rainwater to the rear. Rain gutters and downpipes are available on request. Available in roof depths of 2,200 or 4,400 mm. Kit for self-assembly with easy-to-understand assembly instructions.

- + Hot-dip galvanized flat roof steel construction
- + Standardized basic system with expansion options
- + Rear and side walls made of trapezoidal sheet metal
- + Good price-performance ratio
- + Kit for self-assembly
