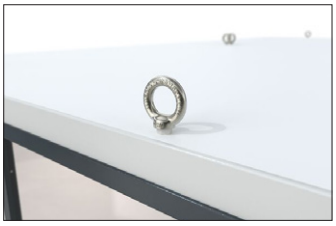
Number of wall elements	10
Base area	7,74 m²
Crane hook	Yes



This room system is the perfect entry-level model for companies that want to create additional recreation rooms or hall offices indoors. Thanks to the standardised construction and the limited design options, this version is inexpensive and can be delivered quickly when things have to move fast. At the same time, the modular system allows you to design your working environment according to your needs. The robust steel construction can be subsequently relocated thanks to lifting eyes, which means you do not have to commit to permanent structural changes. Model version ECO is assembled in the factory. Several electrical packages are available to choose from, providing light, power and air conditioning.

- **Robust steel construction**
- **Fast delivery**
- **Can be subsequently moved by means of lifting eyes**
- **Assembly in the manufacturer's works**
- **Electrical package available**
