The „Paris“ shelter system is the perfect meeting place in any weather. Small and medium-sized groups of people find protection from the weather under the shelter in the classic pavilion form. You can further adapt the pavilion to your requirements with this side wall which blends perfectly into the shelter´s design.

The transparent wall provides reliable protection against wind and water. It is made of crystal-clear single-pane safety glass with ceramic screen printing and is fixed with glass holders. Suitable for the P600 model.

- **Transparent side panel**
- **Protection from wind and rain**
- **Bright single-pane safety glass (ESG)**
- **Mounting with glass holders**
