Base material	Steel
Snow load	0,75 kN/m ²

The Leipzig shelter system is simple, robust and extremely versatile. Through the combination of basic and extension units as well as through the use of different cladding variants, shelters for weatherproof storage of material or for parking vehicles, open, semi-open or closed shelters are created. The practical profiled

sheet roofing has a three-sided, screwed-on cladding and directs rainwater to the rear. Rain gutters and downpipes are available on request. Available in roof widths of 1600, 2200 or 4400 mm. Kit for self-installation with easy-to-understand installation instructions.

- + Hot-dip galvanised flat roof steel construction
- + Standardised base system with expansion options
- + Rear and side walls made of trapezoidal sheet metal
- + Excellent price/performance ratio
- + Self-assembly kit
