It is the ideal frame for a poster. The PR poster notice board impresses with its exact fit to poster media from DIN A4 to A0 and is therefore perfectly suited for classic posters. With a depth of only 30 mm, it is particularly well suited for narrow corridors, stairwells or, for example, platforms – in fact anywhere escape routes are not to be hindered. The rain-tight swinging door is equipped with single-pane tempered safety glass (acrylic glass

for DIN A0). The easily accessible security locks ensure closing convenience. The optional stand with two square-section legs also offers more flexibility for the installation site. Maximum safety is ensured by the MPA fire-protection certificate for low flammability for all models with tempered safety glass. The PR model comes with rounded corners to prevent injuries.

- + Exceptionally minimal installation depth (30 mm)
- + Suitable for tight spaces inside and outside
- + Available in the exact fit for A4 to A0
- + Single-pane tempered safety glass up to DIN A1
- + Wall or stand mounting
