

Is inclined to please and saves lots of space

Space-saving semi-vertical ramp system for indoor and outdoor use and tyre widths up to 60 mm. Available as a free-standing unit or for wall mounting.

Article number	EAN	Width	Height	Depth
105500143	4250366528816	2100 mm	2010 mm	1467 mm

Parking spaces	6
Colour	Silver
Weight	55,00 kg
Construction type	Screwed / assembly kit
Base material	Steel
Mounting type	On the floor
Bike spacing	350 mm
Tyre width	60 mm
Configuration	One-sided

Here bicycles park at an angle to save valuable space with a comfortable 350 mm spacing between bikes. The weather-resistant steel construction is suitable for use indoors and outdoors, in garages or parking lots, and is, in any case, easy to assemble. The Semi-vertical Bike Rack SF can be set up free-standing thanks to

its all-around base frame while the SW version can be mounted to walls. The SF version is available for double-sided access. All are suitable for tyre widths up to 60 mm. Locks can be attached to the guide rails. RAL-coloured versions are available as options.

- + Weatherproof steel construction
- + 60 mm wide guide rails
- + Alternate high/low setting
- + Anti-theft protection through lock connection options
- + Prefabricated for row/serial connection
