

**The popular hoop parker now also for wide bikes**

Galvanised steel construction with robust tubular hoops and two to twelve parking spaces for extra-wide bicycles. Space saving height offset. Pre-assembled.

| Article number | EAN           | Width   | Height | Depth  |
|----------------|---------------|---------|--------|--------|
| 105700061      | 4250366513942 | 1170 mm | 415 mm | 538 mm |

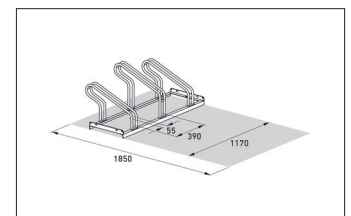

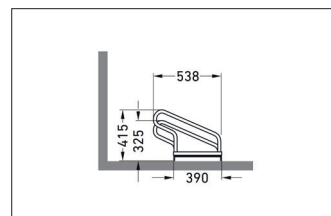

|                   |                        |
|-------------------|------------------------|
| Parking spaces    | 3                      |
| Colour            | Silver                 |
| Weight            | 13,50 kg               |
| Construction type | Screwed / assembly kit |
| Base material     | Steel                  |
| Mounting type     | On the floor           |
| Bike spacing      | 390 mm                 |
| Tyre width        | 55 mm                  |
| Configuration     | One-sided              |

The Hoop Parker 2000 BF complements our best-selling model 1000. The special feature: here modern bicycles with wider handlebars park without stress with 390 mm spacing between wheels. Height-offset or also double-sided on request to save valuable space. Parking space depth is approx. 1850 mm for single-sided

parking, approx. 3200 mm for double-sided. Parking facilities for bicycles with wider handlebars can be quickly set up. Both models are compatible with one another. Ground anchors and mounting brackets are sold separately.

- + Robust, corrosion-protected steel construction
- + Alternate high/low setting
- + Optional for single or double-sided bike parking
- + Row/series connection (with an even number of spaces) and ground mounting possible
- + No assembly required
