The Hoop Parker 2000 BF complements our best-selling model 1000. The special feature: here modern bicycles with wider handlebars park without stress with 390 mm spacing between wheels. Height-offset or also double-sided on request to save valuable space. Parking space depth is approx. 1850 mm for single-sided

parking, approx. 3200 mm for double-sided. Parking facilities for bicycles with wider handlebars can be quickly set up. Both models are compatible with one another. Ground anchors and mounting brackets are sold separately.

- + Robust, corrosion-protected steel construction
- + Alternate high/low setting
- + Optional for single or double-sided bike parking
- + Row/series connection (with an even number of spaces) and ground mounting possible
- + No assembly required
