Colour	Silver
Knee-high crossbar	No
Construction type	Single Component
Base material	Steel
Mounting type	Set in concrete
Configuration	Two-sided

Classic, thousand-fold proven bicycle stanchion for embedding in concrete made of robust corrosion-resistant steel tubing with many applications. As functional urban furniture in green spaces, parking and other traffic areas or for the protection of individual trees as well as in front of entrances and garages on private property – the 9400 series offers comfortable and secure

parking spaces for bicycles or trailers everywhere. In residential street zones, it prevents ugly piles of bicycles and slows down the traffic. Available in three different lengths and as a variant with a knee-high crossbar, it can also be powder coated in RAL colours on request.

- + Robust, hot-dip galvanised steel tubing
- + Different lengths possible
- + Available with central crossbar
- + For setting in concrete or floor mounting
