| Construction type | Welded / ready assembled |
| Base material | Steel |
| Mounting type | Floor mounting |
| Configuration | Two-sided |

Classic, thousand-fold proven bicycle stanchion for floor mounting made of robust corrosion-resistant steel tubing with many applications. As functional urban furniture in green spaces, parking and other traffic areas or for the protection of individual trees as well as in front of entrances and garages on private property

– the 9521 Protect series offers comfortable and secure parking spaces for bicycles or trailers everywhere. The integrated steel cable prevents the stanchion from being cut through and also protects against well-equipped thieves. In residential street zones, it prevents ugly piles of bicycles and slows down the traffic.

- + Robust, hot-dip galvanised steel tubing
- + Integrated steel cable
- + Different lengths available
- + Practical central crossbar for locking
- + For floor mounting
